## ▪ Executive Summary

**O**ur home market of Nigeria is on the verge of significant change. Since the new democratic government came into power, we have witnessed signs of an economic recovery. To build on this momentum, we looked hard at what the country requires and how we can contribute. It was this question that led to the establishment of Energy Blocks Ltd.

At Energy blocks, we run a client-focused organization since our earliest days. By placing clients at the heart of everything we do, we are able to deliver high value-added products and services that meet the needs of our clients and local communities, thereby contributing to social development and economic growth.

Running within our veins is the passion to deliver quality engineering and construction projects. This passion has driven us to exceed way beyond our clients' expectations. Best of all, we are doing it not because it is right, but we are doing it because it is the only way we know how. We at Energy Blocks Ltd have a clearly defined understanding of Health, Safety and Environmental

issues, permits and licenses that are required for construction projects and use an Integrated Management System to ensure compliance.

Also, as a team comprising of professionals and entrepreneurs, with many years of experience in the industry; we collectively recognize the importance of completing projects on schedule. Our Executive team will direct and monitor progress on a daily basis and they will work closely with our project managers, consultants and clients to ensure that all aspects of the various projects we shall handle are undertaken safely and efficiently.

We would now like to commit to you one of the most important aspects of our works: that you as our customer will benefit from our unparalleled commitment in quality and also our world-class professionalism. We therefore look forward to discussing your projects and to presenting innovative solutions to meet your Companies' requirements.

# About ENERGY BLOCKS

## ▪ About Us

**E**nergy Blocks Limited is a wholly indigenous Nigerian company incorporated in Nigeria with Registration Number RC 424,011. Our years of experience in the Oil and Gas services has metamorphosed into three major areas of business namely the Oil Trade, EPC Services and Real Estate Development.

Trading is at the heart of our business. We facilitate the export of crude oil as need arises. We also import Premium Motor Spirit (PMS), Dual Purpose Kerosene (DPK) and Automotive Gas Oil (AGO), supplying mostly to IOCs, Telecoms, Major Marketers, Independent Marketers and the open market.

Our EPC services ensures the provision of solutions, supplies and services which help to protect, improve, restore and facilitate the total plan to achieve all project set target at the right time with the right price for our esteemed customers.

We have also ventured into Real Estate Development. This is strategic in the sense that quality housing has become a thing of concern owing to the fact that we have witnessed several collapses of buildings in the not too distant past. With a deep industry expertise and commitment to quality, we are sure to make indelible imprints in the hearts of our numerous but most esteemed customers.

Every day, all members of staff at Energy Blocks Ltd are committed to the pursuit of operational excellence. We do this by delivering safe, reliable solutions, competitive pricing and maintaining strong committed business relationships with our customers and vendors.

Energy Blocks Ltd believes that people are its major strength, and has a team of industry experts in various positions and offices.

Having all its resources strategically in place, Energy Blocks Ltd is fast surging towards new horizons!

## Mission

Our mission is to consistently deliver exceptional quality, attention to details and timely delivery with the environment in mind that exceeds all of our clients' expectations on every project we undertake.

## Vision

Our vision is to be the most enterprising, most detailed, most timely and best solution providers in every sector of the economy where we play, in Nigeria.

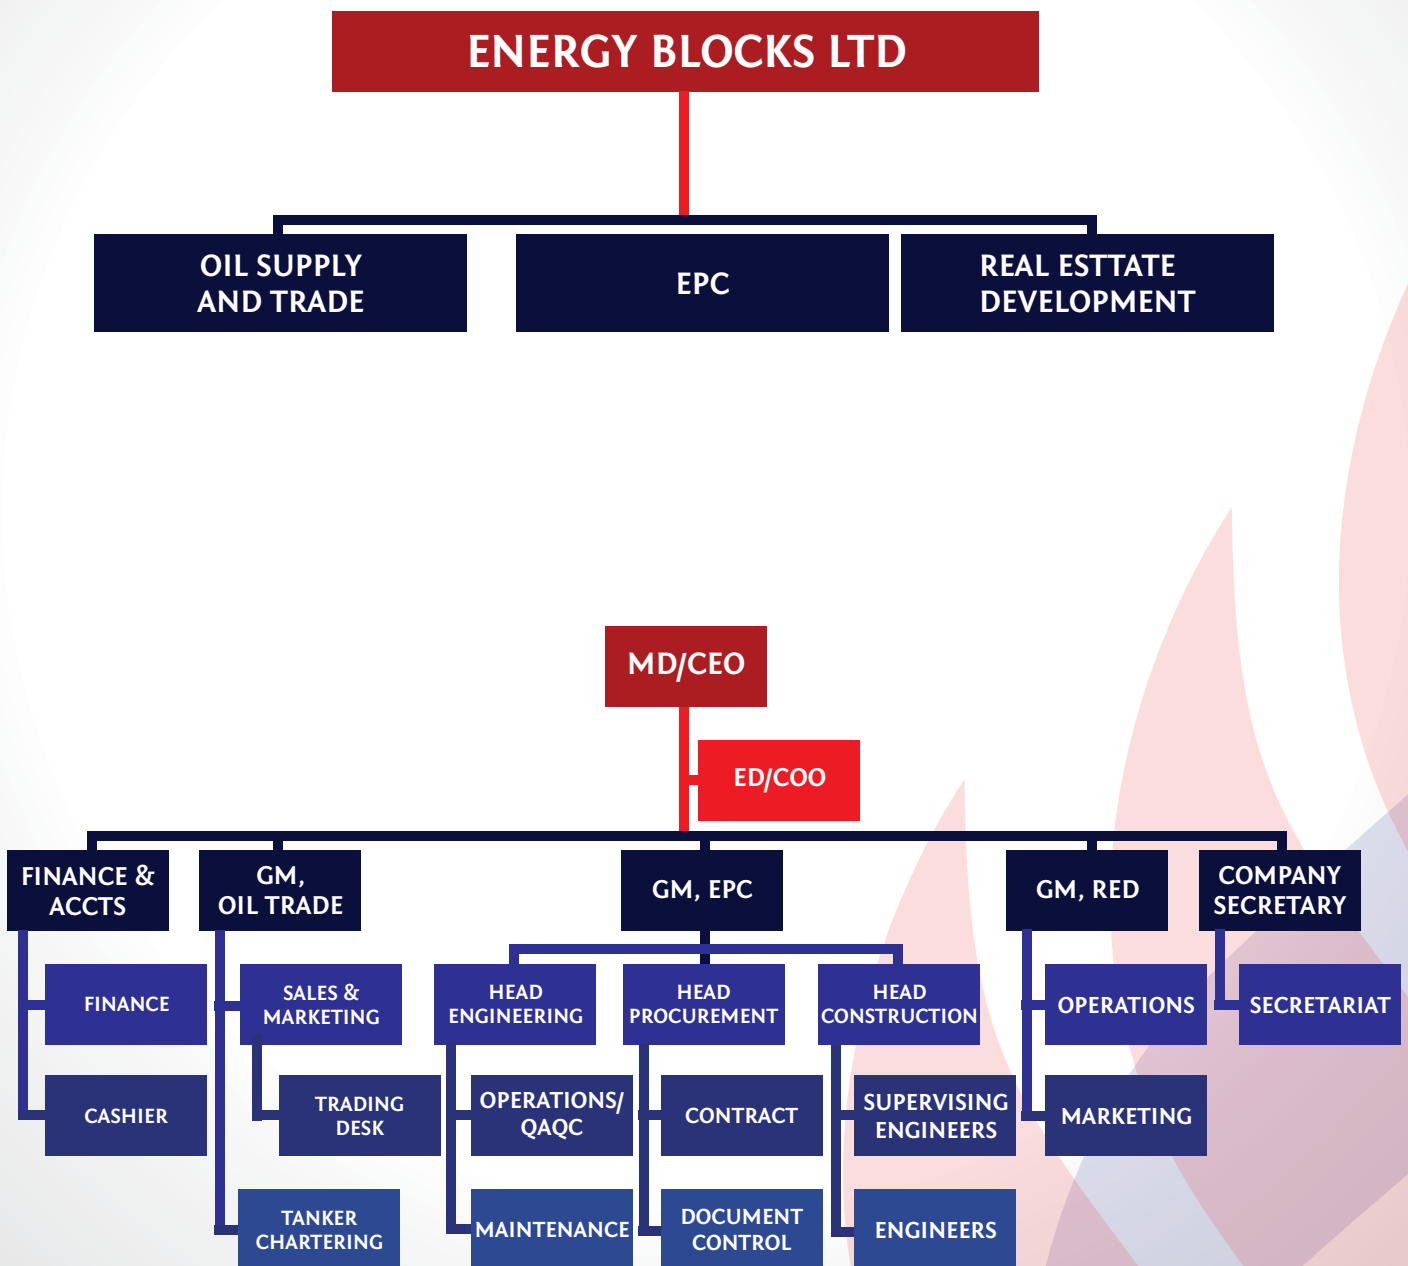

## Values

We have translated our mission statement into six core values which all apply in every project we undertake.

- Leadership
- Quality
- Innovation
- Efficiency
- Integrity
- Service

# Organizational Chart

## ▪ Health, Safety And Environment Policy

**E**nergy Blocks limited acknowledges its duties under the Occupational Safety & Health Rules & Regulation, to provide and to promote a healthy and safe working environment for members of its staff, visitors and contractors, as far as is reasonably practicable. To ensure compliance and enforcement of the rules and regulations, the company abides by the following Safety & Health Policy,

### Health Policy

Work may result in occupational illness. Health hazards are therefore recognized early, monitored and controlled. Energy Blocks Ltd maintains a retainer-ship scheme with medical professionals and government approved hospitals within its area of operations to supplement first aid treatment as well as render medical services to staff.

EBL encourages employees to participate in voluntary first aid training programs. EBL places great emphasis on the promotion of the total health concept and the protection of the worker.

### Safety Policy

Energy Blocks Ltd.'s safety philosophy accords priority to the health and welfare of its staff. The protection of company assets and the environment is also a primary concern. Adequate time is allowed for doing jobs properly and safely. EBL's policy is to provide a place of employment that is free from recognized hazards, organize accident prevention programs and systems for staff, and comply with applicable national and international safety regulations.

We appreciate that safety, accident prevention and environmental protection are operational

responsibilities, and this policy requires all employees at all levels to be responsible for the prevention of job related injuries and illnesses, property damage and environmental accidents through the use of good judgment and the consistent and diligent application of company guidelines and procedures.

### Environment Policy

Energy Blocks Ltd : -

- Recognizes its responsibility towards the protection of the environment and issues this policy as a guide to the protection of both management and other employees to take the prevention of pollution and other environmental hazards into consideration in their operational activities.
- Mandatorily complies with and where possible goes the extra mile to obey the requirements of all environmental protection laws that affect its operations.
- Revises its environmental policy annually and if necessary update it to take account of new developments. From time to time set up procedures to assess the environmental impact of its operations and develop programs, which enables the company to remain environmentally friendly.
- Informs and trains its employees to take account of environmental issues in their areas of work to imbue them with a sense of responsibility for their environment.

Regularly reviews both environmental performance and effectiveness of the environmental management system ISO 14001.

### ▪ Our other Work Related Policies

#### **Alcohol, Illegal Drugs & Smoking Policy**

Being in possession or under the influence of intoxicating beverages or illegal drugs at the work place and company offices is a termination offence for any employee of Energy Blocks Ltd.

EBL takes appropriate measures to protect employees from unnecessary exposure to smoking and its related hazards.

The smoking of pipe or cigarette is and shall remain prohibited at all work sites and Energy Blocks offices.

#### **Refusal to Work Policy**

It is Energy Blocks Ltd.'s policy that any worker can refuse to perform assigned tasks if any of the following circumstances exist:

The task does not comply with the company's HSE policy.

The work conditions are deemed unsafe.

The work is not in accordance with relevant safety procedures.

The worker is not aware of the procedure concerning that particular task.

If the worker deems it fit to enforce his/her right to Refusal to Work in the above circumstance, obliges the employee to inform his/her supervisor of the situation so that corrective measures can be taken and the work does not suffer unnecessarily.

#### **Community Assistance Policy**

EBL demonstrates social responsibility by taking initiatives that address the

social needs of communities where it operates. Acting as a responsible company includes:

1. Encouraging environmentally responsible behavior.
2. Professionalism and being ethical in operations.
3. Encouraging and supporting employee volunteering.
4. Contributing money and professional expertise to charities.
5. Being involved in economic and partnership development.

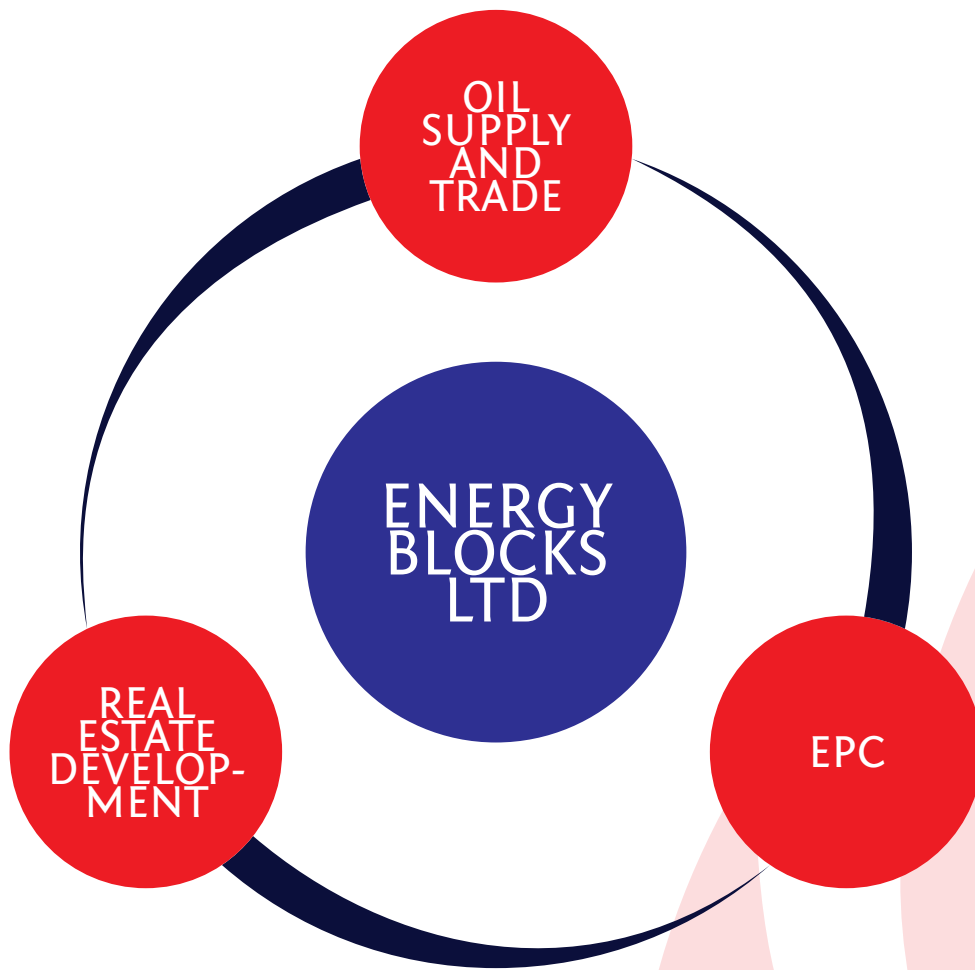

#### **Quality Policy**

Energy Blocks Ltd is committed to providing solutions to our customers' needs by making only the best systems and products available to them. We will provide systems that completely meet our customers' specifications every time.

We will continually strive to apply leading edge technology to the design and installation of our systems and products, whilst exercising cost effective practices.

In order to sustain our ambitions, the company will operate in accordance with ISO 9001 to ensure that all staff are appropriately trained in order to add value and quality to the operation of the company's controlled processes and procedures

## ■ OIL SUPPLY AND TRADE

**E**nergy Blocks is amongst others, a specialized energy trading company based in Nigeria. In this respect we engage in the trading of oil products, fuel oils, crude oil, condensates and emissions. We trade, transport and store energy products by sea vessels and also by road tankers. Our services are underpinned by the in-depth expertise and knowledge of our traders.

### **Our activities include the day-to-day trading of:**

1. Crude oil and condensate
2. Automotive Gas Oil

3. Premium Motor Spirit
4. Dual Purpose Kerosene
5. Jet A1
6. Low/High Pour Fuel Oil

### **We also operate strongly in:**

1. Tanker chartering services
2. Crude and Product logistics and storage

The company enjoys good trading relationships with some of the major international oil traders. Our access to products is highly facilitated by our existing relationships with these trading companies.

## ■ REAL ESTATE

**E**nergy Blocks Ltd is a fast growing real estate development company based in Lagos. Our primary business is providing quality

accommodation for clients looking to acquire property for investment or personal use.

Our work covers the following:

1. Residential housing plan
2. Commercial property development
3. Mixed used development
4. Infrastructure development

5. Hotel and resort development
6. Sports and recreational facility development
7. Onshore and offshore property brokerage

Our competitive advantage is derived from our track record of on-time delivery of units, compliance to selling point specifications, and integrity in dealing with all clientele. Energy Blocks is committed to exceptional execution capabilities in all areas including construction, design and finishing.
